

## Techno Epoxy L330

---

**Single component coating based on special modified synthetic resin**

### Uses

**Techno Epoxy L330** is specially made for:-

- Economical coating in industrial and marine coatings.
- Colored coating may be used for concrete, steel, pipes

### Advantages

- Quick drying single component and easy to apply
- Economical-single component ensures almost no waste.
- Compatible with most coating systems
- Can be spray applied up to 75µm dft
- Time saving – touch dry after 15 to 45 minutes

### Description

**Techno Epoxy L330** is a single component epoxy based on a special modified synthetic resin and micro fine fillers

### Coverage

**Techno Epoxy L330:** 6-8 m<sup>2</sup>

Note: this coverage figure is theoretical – due to wastage factors and the variety and nature of possible surface, practical coverage figures may be improved.

### Properties

Gloss	: Matt
Solid content	: Approx 80% by weight 62.5 by volume
Specific gravity	: Approx 1.65g /cm <sup>3</sup>
Full Cure	: 24 hrs.
Recommended dft	: 75-100 µm/ one coat
Drying times	: at20C <sup>o</sup> at30C <sup>o</sup>
Touch dry	: 15 min                      10 min
Recoating time	: 4 hrs.                              3 hrs.

### Applications method

flash point 29 C°.

By brush & roller : -Volume of thinner 0 - 5  
Air spray : -Volume of thinner 0 - 10%

Over coating time for dft 75-100 microns.

Substrate temp. C°:	20 C°	30C°	40C°
Interval:	4 hrs.	3hrs	2hrs.

**Note:**

- Removing any contamination on the surface by high pressure water cleaning or mechanical cleaning.

**Health And Safety**

- Wear protective cloths, gloves, glasses and face protection.
- For skin contact, remove it with suitable cream and followed by soap and water cleaning.
- For eye contact rinse with plenty clean water and then seek medical advice.
- For more details, require safety data sheet for the product.
