

Techno Resin Sealer

Special purpose acrylic resin coating, acts as a curing durable membrane. Techno .resin sealer may be produced transparent or colored

Description

Techno Resin Sealer: is an acrylic resin based compound, mainly sprayed onto the .surfaces of the building materials, such as concrete, gypsum and brickworks

Uses

It can easily penetrate through the pores of concrete surface, providing a durable sealed membrane. This membrane acts as a tight protective coat against water seepage, weathering attack, also used as a primer for any subsequent treatment or .coating

:Advantages

Easy to apply, dries quickly-
complete protection from damp attack of most oils and chemicals and high abrasion -
resistance
No yellowing with age-
Suitable for inside and outside application -
No surface dusting or dirt penetration -
Suitable as anti-fungs paint -

:Properties

Transparent	Colored		
Solid content		24 %	48%
		Density at 25 °C	
0.88	1.08		(kg/L)
Viscosity (fc/4)		25 sec	118 sec
Surface dry at 25 °C		5 min	10-15 min
Hard dry at 25 °C		3 hours	4-5 hours

Surface Preparation

All surfaces should be clean, dry and free from dust. Wet substrates should be sponge-dried .to remove all free surface water

Priming

.Priming is not required on properly prepared surfaces

Cleaning

Tools and equipment should be cleaned with Techno Solvent 102 immediately after .use

Estimating

Modern Technologies for Construction Chemicals

Factory: Wadi Elnatroun - First Industrial Area.

Head Office: New Maadi - 3\288 St.

Fax. & Tel.: 02-25200833

Mob. : 010 209 65554

Supply

5 kg packs Techno resin sealer
.4 liter packs Techno solvent 102

Coverage

Rate of use: 5 m²/kg

Storage

Techno resin sealer has a shelf life of 12 months, when stored in warehouse
.conditions below 25°C
